Wednesday, November 4, 2020

1:00-3:00 PM

Zoom Meeting ID:

761 331 1121

Password: GMLF2020

Zoom Link: <https://us02web.zoom.us/j/7613311121?pwd=cHpZMmFFV0RXb3JxSXhoWk9Ucm0wZz09>

1-1:10 **Open & Welcome, Katie Steele Danner, Executive Director, Greater Missouri Leadership Foundation, Class of 1993**

1:10-2:10 **Beyond the Ballot, St. Louis and Suffrage**, a virtual tour of limited exhibit, Missouri History Museum. Women, often portrayed as secondary characters in the city's formation, were actually key to the establishment, survival, and growth of St. Louis. This limited time exhibit showcases women who made an impact in St. Louis before gaining the vote in 1920. Through an engaging mix of artifacts, images, media, and interactives, Beyond the Ballot explores women's unique roles in St. Louis history. One major element of the exhibit traces the long history of the fight for woman's suffrage in St. Louis and the events leading up to the passage of the 19th Amendment in 1920.

2:10-2:45 **Break Out Room Discussion** with Challenge Class of 2020 – Reflections on exhibit & challenges women are facing today with respect to voting, elections, holding office; post-election experiences and thoughts.

2:45-3:00 **Out Brief of Break Out Room Discussion and Wrap Up of Day**

Thursday, November 5, 2020

9:00-11:00 AM

Katie Steele Danner, Executive Director, Greater Missouri Leadership Foundation; Class of 1993

CONNECTIONS STL

Amanda Barbieri

Amanda Barbieri has spent a decade bringing power to Missouri; by procuring fuel and fuel services to ensure reliable and affordable rates for Ameren Missouri customers. As a Manager of trading and operations, Amanda manages daily coal deliveries, short-term power, natural gas, and oil trading. Prior to working for Ameren, Amanda was an international accountant at Monsanto (St. Louis) and an accountant with Defense Finance and Accounting Services (Indianapolis). Amanda holds a BS in Accounting from the University of Kentucky and spent a semester abroad at the University of Vienna in Austria. She has served as the board Treasurer for the St. Louis Coal Club. Amanda also served as the UK Alumni Club President for the St. Louis chapter for 3 years. Amanda is married to Joe Barbieri and they reside in O'Fallon, IL. They have two children, son, William (6) and daughter, Elliot (3), and a fur-baby, Bailey. Although Amanda bleeds blue (a Wildcat for life) watching the St. Louis Cardinals clinch two World Series championships has made her a lifelong fan. In addition, in Amanda's "spare" time, she enjoys the growing St. Louis foodie scene as well as traveling with her husband (thanks to in-laws who love watching the kids). Amanda is GMLC Alumna 2018 and is serving on the 2020 GMLC Planning Team.

Emily Brasel

As director of communications, Emily Brasel leads employee communications on behalf of BJC HealthCare, one of the largest nonprofit health care organizations in the United States and one of the largest private employers in the state of Missouri. Emily has more than 20 years of experience as a communications professional. Prior to her current role, she was the head of internal communications at Wells Fargo Advisors. She also has held communications leadership roles at Missouri Baptist Medical Center and Bank of America. She is a Leadership St. Louis - FOCUS St. Louis - graduate (class of 2015), a Greater Missouri Women's Leadership Challenge graduate (class of 2017), a Cabinet Member of the United Way Women's Leadership Health Care Services Society, and a member of the Healthcare Business Women's Association. Emily holds a bachelor's degree in Public Relations and Communications from Illinois State University. Emily has served on the GMLC Session IV Planning Team for four years. She and her husband, Kelly, live in Edwardsville, IL with their two daughters: Lexie and Libby. Emily is GMLC Alumna 2017. Emily holds a bachelor's degree in Public Relations and Communications from Illinois State University and is currently pursuing a master's degree from Webster University.

Faye Dixon

Faye Dixon is the director and program manager on the F/A-18 and EA-18G programs, a division of Strike, Surveillance and Mobility (SSM). She leads international new business efforts, and is responsible for developing winning strategies and securing new users for the F/A-18 and EA-18G platforms globally. Ongoing campaigns include Canada, Finland, Germany, India, Switzerland and UAE. Dixon leads engagement with the U.S. Navy aircraft program foreign military sales team, and collaborates across the Boeing organization and with industry partners to secure international new business. Prior to this position, Dixon served as the program manager for the Switzerland new fighter aircraft campaign. She was also the chief of staff of SSM within Boeing Defense, Space & Security. She has served as senior manager of BDS Strategy, leading portfolio & financial analyses and market assessments in support of strategic objectives for the defense sustainment, logistics and training businesses. Dixon was a Sales and Marketing focal for international C-17 training, with established customer relationships in the United Kingdom, Qatar, India and United Arab Emirates. Dixon holds an Executive MBA from Washington University in St. Louis, a Master's of Science from the University of Illinois at Chicago and a B.A. from Blackburn College.

Mary Elizabeth Grimes

Mary Elizabeth Grimes is a purpose driven and successful leader. Becoming the president of Marian Middle School was a perfect match for her passion and skills. It is her joy not a job. She currently is responsible for stewarding over 200 students from 5th grade to college graduation and beyond. As executive leader for Marian the success of the organization is dependent on her ability to ensure that all students have a chance to finish high school and succeed in college. She also encourages her staff, faculty and students to reach their full potential. Mary Elizabeth has elevated the organization to its next level of growth and recognition. Marian Middle School now benefits from her previous experiences. She served as the State Director for the Greater Missouri Chapter of March of Dimes where she transformed the declining chapter into a sustainable and operationally efficient organization. She was also president of Forward Vision, Inc., a brand management consulting firm. She has served as the director of marketing for BJC Healthcare, director of Development for Fair St. Louis; executive director of Elite International Sports Marketing and Management; director of sales and marketing with the St. Louis Sports Commission; and Account Executive at KMOV-TV/Channel 4. Before returning to her hometown of St. Louis, Missouri, Mary Elizabeth lived in Atlanta, Georgia. Her professional experiences in Atlanta included host and associate producer for three weeknight talk shows on WTLK-TV, Channel 14; National Marketing Manager of the Southeast Region for Television Bureau of Advertising; Regional Director of Advertising Sales for MTV Networks, Inc.; Account Executive positions with Home Box Office; CBS, Inc.; WSB-TV and WKLS-FM. For her leadership and contributions to the community Mary Elizabeth has been recognized by several organizations: Missouri Athletic Club Woman of Distinction Award, YWCA Distinguish Leader Award, St. Louis Business Journal Diverse Leaders Award, Rise Collaborative Woman of Influence Award, Youth and Family Center Equalizer Award, Incarnate Word Foundation Leadership Award, Gazelle Magazine Top 50 Women of Influence Award. Mary Elizabeth is also a motivational speaker, and she recently wrote her life story featured in the third volume of On the RISE, a collaborative writing effort by members of RISE Collaborative Workspace. Mary Elizabeth also finds time to serve on community boards like the Convention and Visitors Commission, Villa Duchesne and Oak Hill School, Catholic Charities and the iHeartMedia Local Advisory Board. She is also a member of Rise Collaborative, The CEO Forum, Washington University Women's Society and the Greater Missouri Leadership. She graduated from Spelman College and earned an Executive MBA from the Olin School of Business at Washington University.

Carolynne Huether

Carolynne Huether is GMLC alumna 2015 and serves as the chair for the 2020 GMLC Session IV. She has been a member of the Session IV Planning Team since going through GMLC in 2015. She will be joining the GMLF Board of Directors in 2021. Carolynne is currently the Director of Engineering for Strike, Surveillance & Mobility in Boeing Defense, Space & Security. Prior to her current assignment, Carolynne was the MQ-25 SEIT senior manager and a senior manager in Boeing Defense, Space & Security Engineering focused on Engineering Strategies. Previously, she was the chief engineer for the Training Systems Division in Boeing Global Services and was responsible for hardware, software and services products delivered within the \$700m business. She managed Integrated Product Teams which were located across multiple sites and business units, and were responsible for supplying training, training hardware, software, courseware, instructor services and stations. The teams supported more than 25 platforms and customers from around the world representing Army, Navy, Air Force, Marine, Special Ops and Boeing Commercial programs. Carolynne was project manager for Boeing enterprise teams to roll out Boeing's safety programs, Go for Zero Safety Promise and the Chairman's Safety Award. This involved training development for 175,000 employees worldwide, video development, website development and site logistics for simulcast at over 12,000 managers at 100 locations worldwide. Other roles Carolynne has held at The Boeing Company include Standoff Strike Weapon Launch Systems, C-17, F-18, Ground Support, Software Quality and various aspects of modeling and simulation. She has served as Principal Investigator for Research & Development and has also held positions in environmental simulation research, graphics research and is past Chairman for the Synthetic Natural Environment/Sensor Modeling Forum -Simulation Interoperability Standards Organization (SISO). She currently holds a patent for ILVC technology innovations. Carolynne graduated from University of Missouri-Rolla with a bachelor's degree in computer science. She later received her master's in computer science from the same university. She has served on public and private boards including the Town & Country Missouri Police Commission, Town & Country Board of Adjustment, Greater Missouri Leadership Foundation, school parent organizations and the St. Louis Christmas Carols Association.

Tonya Noble

Tonya Noble is the Director of International Defense Training in Boeing Global Services with responsibility for growth, leadership, and execution for a global portfolio of defense training products and services that train pilot, mission aircrew and maintainers on military platforms. Prior to this assignment, she held Director responsibilities for sustainment services in Southeast Asia, India, and Australia. She was previously Program Manager for U.S. Navy and U.S. Marine Corps and all F/A-18 International Sustainment Programs. She additionally held leadership and technical roles for other military and space support programs including P-8A, C-17, F/A-18, T-45, and Commercial Crew Transportation System. Her 20+ year career started as a Software Systems Engineer at Boeing after earning a Bachelors of Science in Electrical Engineering from Western Michigan University. She also holds a Masters Degree of Science in Computer Science from Webster University and Masters of Business Administration from Washington University through the Executive MBA program. Tonya serves as the Boeing Executive Focal for Missouri University Science and Technology and sits on the Board of Directors for the Greater Missouri Leadership Foundation. She also serves as an Executive Champion for Boeing Women in Leadership and Leadership Next and is also a mentor for several employees. Prominent accomplishments include being honored with a Career Achievement Award at the 2020 Women of Color STEM Conference, a 2020 Science Spectrum Trailblazer by Black Engineer of the Year Awards (BEYA), 2018 Distinguished Alumni of Western Michigan University, the 2017 Boeing St. Louis Diversity Executive "Walk the Talk" award winner, 2015 Distinguished Alumni Award from Western Michigan University, 2014 Outstanding Woman in Technology, 2012 Technology All Star, and selected as one of the 'Top 40 Under 40' award recipients by the St. Louis Business Journal. She is also featured in the Charles H. Wright Museum's: Inspiring Minds: African Americans in Science and Technology ongoing exhibit in Detroit, Michigan. Tonya is GMLC Alumna 2010.

Tara Oglesby

As Vice President of Customer Experience, Tara K. Oglesby is responsible for effectively driving customer-focused strategies to ensure every interaction leads to a great customer experience. She is responsible for leading departments which play a critical role in delivering a satisfying experience including: Customer Service, Energy Efficiency & Renewables, Customer Intelligence and Smart Meter Strategy & Implementation. Cont...

With more than 25 years of experience in the utility industry, Ms. Oglesby began her career with Central Illinois Public Service Company in 1992, now Ameren Illinois. During her years at Ameren, she has held a variety of roles in field operations, generation, accounting, marketing and customer service. From 2006 - 2014, she led Ameren's Emergency Operations Center logistics team, whose primary role during major storm events is to support responders by providing meals, lodging, fueling and security. In 2008, she was promoted to Director of Customer Satisfaction, forming Ameren's first customer research and strategy group. In her current role, Tara oversees the largest portfolio of energy efficiency programs in Missouri's history, in addition to leading a company-wide effort on improving customer satisfaction. Since then, Ameren Missouri has won 2 JD Power awards for highest in business customer satisfaction. Ms. Oglesby holds a Bachelor of Science degree in business administration from The University of Illinois. She is a Six Sigma Black Belt and a recipient of Ameren's President's Performance Leadership Award in 2006 and the President's Pinnacle Award in 2013. Ms. Oglesby is active on two St. Louis area non-profit Board of Directors and has played a leadership role in supporting the Greater Missouri Leadership Challenge, whose focus is engaging Missouri women to lead and serve their communities. Tara is GMLC Alumna 2008 and is a former member of the GMLF Board of Directors.

Gretchen Pettet

My entire career has been focused on leveraging the potential of people," Gretchen says. She holds undergraduate degrees from East Central College and St. Louis University, as well as an MA in Human Resource Development from Webster University and an MBA from Fontbonne University. Gretchen's career achievements are many, including learning and development leadership at Edward Jones, leading East Central's Center for Workforce Development as Executive Director and serving the Greater Missouri Leadership Foundation as Executive Director after participating in the program in 2008. Most recently she served as the VP, Talent and Culture for Mission Matters Group, a consulting firm focused uniquely in the nonprofit space. Gretchen is married to Brad, and together they have three daughters — Meredith, Eleanor and Lillian — as well as two dogs, Rudy and Millie. They live in downtown Washington, MO, where they lovingly (and sometimes not so patiently) restored a 115+ year old Victorian home and recently built and moved into a riverfront brownstone. "Most of my free time is dedicated to running my three cheerleaders to and from the gym, school, games and competitions," Gretchen says. "I'm an avid reader, a mediocre runner and adventurous cook." She also enjoys spending time on the water at the Lake of the Ozarks with family and friends. As if all that isn't enough, in 2018 Gretchen successfully campaigned and was elected to serve as a member of the Washington, MO City Council. She was re-elected in 2020. Gretchen loves to cook, but doesn't use recipes or cookbooks. "I browse Pinterest and read cookbooks for inspiration, but I don't like measuring and I'm not very good at following instructions!" she smiles. Gretchen is particularly passionate about women's rights. "Until women of all backgrounds, colors and nationalities are afforded the same privileges and rights as all men, we have a substantial burden to educate, advocate and make a difference," she says.

Juli Shaw

Juli Shaw joined Ameren in January 2019 as the Manager of Digital Strategy where she is responsible for leading the development and measurement of the customer and business outcome driven Ameren Digital technology strategy. Since joining Ameren, she has successfully stood up the new Strategy function within Digital and operationalized new processes for strategic planning and cascading scorecards. Additionally, she leads the creation of senior executive level presentations to communicate the Digital strategy and execution progress across Ameren and works directly with the Chief Digital Information Officer on the development of Digital strategy material presented annually to the Board of Directors. Prior to joining Ameren, Shaw spent 13 years at The Boeing Company in strategic planning, international business development, project management, operations, and financial roles. She spent her last several years with Boeing in the Defense Strategy organization leading the annual strategic planning process, performing strategy portfolio and financial scenario analysis, conducting market analysis, and developing go-to-market strategies. Cont..

She also served as Interim Chief of Staff to the Vice President of Boeing Defense Strategy and led the annual development of strategy material presented to the Board of Directors and Executive Council by the Boeing Defense CEO. Shaw holds a Master of Business Administration from Washington University in St. Louis and a Bachelor of Science in International Business from Missouri State University. She is a member of the UNITE Utility IT Information Sharing and Best Practice Group Leadership Team and a 2018 participant of the Greater Missouri Leadership Challenge. She is actively engaged in STEM volunteering, including co-coaching a FIRST Robotics Lego League team with a local elementary school. Shaw resides in St. Louis, MO with her husband.

Cynthia Stokley

Cynthia L Stokley, graduate of North Carolina Central University joined Bayer Crop Science in April 2017 and currently serves as Head of Quality Product Supply North America. In this role, Cynthia and her team are responsible for product supply quality and availability of row crop and crop protection products to market. Previously, she worked at BASF holding a number of positions in the area of Quality and Stewardship. Cynthia has over 20 years experience in Quality Management where she has built non-conformance and continuous improvement systems, developed document management systems, managed production field stewardship processes and led logistics and operations across North America, South America, Europe and Asia. Cynthia has extensive experience in Diversity and Inclusion and has been instrumental in creating an atmosphere where diversity is embraced and accepted. Cynthia is a Certified Quality Auditor through the American Society for Quality and brings a wealth of knowledge from the agriculture, medical device and pharmaceutical industries. Cynthia and her husband have been married for 24 years. They have one son, a daughter and two beautiful granddaughters. In her spare time Cynthia loves to read, travel, sing and indulge in retail therapy.

Danielle Stuart

Danielle Stuart is the Head of Strategic Communications & Engagement, Crop Science at Bayer. Stuart collaborates with regional, country and business communications leaders to foster a comprehensive narrative to support the business strategy. Danielle received both her Bachelors in Journalism and her Masters in English at Southeast Missouri State University. In 1998, she worked as a Team Lead for the Union Pacific Railroad and began working for Monsanto in 2004 and building her roles until 2018. She then transitioned to become the Executive Communications Director at Bayer previous to becoming the Head of Strategic Communications & Engagement. Danielle is involved in several organizations; the Gateway Region YMCA Community Development Board, National Association of Farm Broadcasters Foundation, American Seed Trade Association, and the U.S. Farmers & Ranchers Alliance. Danielle is also a part of our Greater Missouri Leadership Challenger Class of 2017. She loves traveling, reading, and supporting agriculture.

Jackie Tischler

Jackie Tischler serves as senior vice president and chief people officer for BJC HealthCare, one of the nation's largest nonprofit health care organizations. With more than 31,000 employees, BJC is the largest employer in the St. Louis region and one of the largest employers in Missouri. Tischler has responsibility for all aspects of the human resources organization including strategy, planning, recruitment, learning, compensation and benefits. She leads the Human Resources Leadership Team, a cross-organizational team of human resources professionals from BJC's hospitals and health services organizations as collectively the team focuses on making BJC an exceptional place to work and achieve the organization's mission. Additionally, she serves as the liaison to the Compensation Committee of the BJC Board of Directors. Before joining BJC in 2020, Tischler served as senior vice president, human resource operations at Baylor Scott and White Health (BSWH) in Dallas, Texas. BSWH is the largest fully integrated health care system in Texas. In this role she was responsible for compensation, executive compensation, talent acquisition, benefits, HR technology, HR service center, employee health and managed an HR team of 300. Cont...

Tischler also spent two years as vice president of human resources with University of Colorado Health, at the time a \$2.5 billion integrated health care system with three hospitals and 15,000 employees. Additionally, she held senior HR and transformation leadership positions at Methodist Health System in Dallas, and began her career with Ernst and Young, LLP in audit services. A former certified public accountant, Tischler holds a master's degree in health care administration from Trinity University in San Antonio, Texas and a bachelor's degree in business administration (accounting major) from Oklahoma State University in Stillwater, Oklahoma. Tischler and her husband Will have one daughter who attends the University of Texas in Austin.

Megan Warnick

Megan Warnick joined Ameren Missouri in January 2019 after 15 years leading customer-facing operations in the financial services industry. Starting as Manager, Customer Service in Ameren's contact center, Megan led teams of advisors to deliver exceptional experiences to residential and small business customers. Recently Megan assumed the role of Manager, Customer Engagement where she has responsibility for the overall strategy of customer communication campaigns within Ameren Missouri. Megan is a St. Louis native who loves food, hiking, and traveling. She and her husband, Jay, have two kids- Sophia (11) and Charlie (8). She is a GMLC alum from the class of 2018.

Shalonda Webb

Shalonda Webb is a manager on F/A-18 Mission Management Program servicing and supporting the F/A-18 Mission Management Electronic Warfare Software Team in Boeing Defense, Space & Security (BDS). In this capacity, she is responsible for team development and supporting the achievement of the F/A-18 Growler Electronic Warfare Jammer, Counter-Jammer, and Display functionality. She provides coaching and guidance to all team members as they begin to champion and implement the new SAFe (scaled agile) development on the F/A-18 Mission Management H18 Program and the F/A-18 NGJ G-DTT teams. Prior to joining the F/A-18 Program, Shalonda was on the F15 Analysis & Integration Team, as the Qatar Integration Lead Engineer for HDVR, FDR, IMS, & MDS. In addition to supplier coordination and briefing at program milestone meetings, she was responsible for integrating the software, hardware and testing for all aspects of each of those subsystems. Before the role of the F-15 Program Qatar HDVR Integrator, she served as the Project Manager for F-15 Super Desktop Test Environment (SDTE) formalizing a new product line for F-15 customers to integrate real hardware (i.e. RADAR and IRST) with the F-15 Mission Computer. In her role as F-15 SDTE Project Manager, she delivered upwards of 21 different product lines and managed a budgets ranging from \$150,000 to \$500,000 for each product, while maintaining staffing across 11 cross functional teams. Shalonda is an engineer. She has served in a variety of capacities from software engineer to process lead onto build team captain - developing several software subsystems for the F-15; developing and executing processes to ensure quality products. Throughout her career on F-15 Eagle, Shalonda served as the lead simulation FMS trainer for multiple international FMS customers, which required international travel for DTE installation and training of the South Korea, Japan, and Singapore FMS customers. Early in her career, Shalonda was a real-time embedded software engineer for the mission computer on the J-UCAS, F/A-18 Legacy, and OSCAR (AV-8) programs developing software for a variety of mission computer systems including: SATCOM, MIDS, Joint Direct Attack Munition (JDAM) Forward Looking InfraRed (FLIR), Dual Mode Tracker (DMT), Height Above Target (HAT) functionality for target designation, Maverick weapon, System Laser Codes, Close Air Support On Station Report (CAS OSR), and HAVEQUICK / SINCGARS Radios. Shalonda joined the Boeing family after graduating from Fisk University with a Bachelor's degree in Computer Science. She has received numerous certifications and is currently pursuing a Master's in Engineering Management degree from Washington University. A native of Port Arthur, TX, she is a southern girl at heart. She currently lives in a beautiful community in Florissant, MO with her husband, Steven Webb, Sr. They have three sons: Steve Jr., Sean, and Sterling. Shalonda loves to volunteer from cheerleading coaching to Rebuilding Together. She is a strong advocate of "each one teaches one" and giving back to our communities. One of her true desires is to skydive, if she can get her family to agree. She also loves to dance, spin class and traveling the country to go to WWE wrestling matches with her boys.

Katie Voss

Katie Voss is a Program Manager within Autonomous Systems Aviation and Technology. In this role she is Program Manager for a variety of new campaigns including the MQ-Next and Airpower Teaming System (ATS). Prior to her current role, Voss led the Systems Engineering Integration & Test (SEIT) capability within Strike, Surveillance & Mobility spanning multiple sites. Her other leadership positions include serving as the Advanced Design Simulation Team manager, engineering integration team for Liquid Robotics during subsidiary acquisition, international radar affordability lead targeting overall program cost efficiencies and alignment between F/A-18 and F-15 radar programs as well as the lead for Deliverables Programs within Flight Simulation where she was responsible for new simulation functionality, software updates, hardware integration and customer installation (domestic and international). Voss is a 2019 Graduate of the Greater Missouri Leadership Challenge (GMLC). In May 2018, Voss completed the Women's Leadership Forum certificate from Washington University in St. Louis. Voss holds a Bachelor's degree in engineering management with an emphasis in industrial engineering, a minor in psychology and a Master's degree in systems engineering from University Missouri – Rolla (Missouri S&T). Her hobbies include flipping and remodeling homes, coaching soccer for her daughter and twin boys, boating at Lake of the Ozarks, and supporting charities that have impacted her life (cystic fibrosis foundation and muscular dystrophy).

Lizette Zardetto

Lizette is a 27-year employee with Monsanto, now Bayer. Throughout her career, Lizette has held many and varied leadership roles across the Supply Chain organization- including within Manufacturing, Logistics, Customer Care and Planning. Lizette currently leads the Demand Planning Organization for the US Row Crops business. She and her team partner closely with Commercial to analyze, evaluate and project the future needs of our customers; translating that information into a signal for the rest of Supply Chain. Lizette holds Bachelor of Science degrees in Chemical Engineering and Chemistry from Tulane University. She also completed an MBA from Freeman School of Business, Tulane University. Previously she served on the board of Kids' Place in St. Louis, volunteered at Children's Hospital, and has participated in a Big Sister program. Lizette and her husband, Atilio, have two children: Aidan (11) and Ellie (7). When they aren't running between kids' activities, they enjoy hiking, visiting family in New Orleans and Guatemala, or traveling to and exploring new destinations.
